STAT

SUBJECT: Support for the President's Foreign  
Intelligence Advisory Board (PFIAB)

1. Please see that anyone who briefs PFIAB or participates in any PFIAB discussion sessions provides the DCI/DDCI (through the Executive Director) a memorandum for the record on the session. This should highlight any interests or concerns the Board is pursuing, potential opportunities for the Agency to support its efforts, and any suggestions for obtaining PFIAB support for Agency/Community goals.

2. When we task your components for support for PFIAB, we will provide whatever relevant background material we can.

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM:

[redacted]  
Executive Assistant/EXDIR

25X1

SUBJECT: PFIAB Update

1. FYI: During a recent lunch with PFIAB staffer Fred Demech, he mentioned the Board is concerned about:

--counterintelligence (they are being told by the NSC that a more centralized effort is needed);

--policy-level evaluation of the intelligence product (they plan to survey high-level customers on their views);

--rebuilding our HUMINT capabilities (they believe HUMINT has been cut back in favor of technical collection systems).

2. Fred also noted the Board grilled [redacted] on the technology transfer issue last Thursday. [redacted] advised they were a tough, challenging audience who are seized with the problem, believe more needs to be done, and probably will relay these concerns to the President. [redacted] will be providing [redacted] task force a more detailed briefing on 8 or 9 April, probably as background for their paper to the President.

3. We are asking people to provide memoranda for the record of future sessions with PFIAB so we can monitor their concerns, be responsive, take advantage of any help they can provide, etc.
